

# How to edit Skill Points (How did it work for me)

## 1. Open Cheat Engine and select the running game

## 2 Open Table (download it to your computer first)

## 3. Initialize

**Change address** [X]

Address: 2AA0929CC48 =23

Description: Skill Points [Actual]

Type: 4 Bytes

Pointer Change to 8

< 8 > 2AA0929CC40+8 = 2AA0929CC48

< A20 > [2AA0988D0C0+A20] -> 2AA0988D0C0

p\_SkillSystem ->2AA0988D0C0

Add Offset Remove Offset

OK Cancel

#### 5. Change settings "Skill Points [Cumulated]"

Similarly, changes to the 'C'

#### 6. Change the number of points (for example, 50, or 100)

<input type="checkbox"/>	Skill Points [Actual]	P->2AA0929CC48	4 Bytes	50
<input type="checkbox"/>	Skill Points [CumulateP->2AA0929CC4C		4 Bytes	50

### 7. And only now apply !!!

<input checked="" type="checkbox"/>	Skill Points [Actual]	P->2AA0929CC48	4 Bytes	50
<input checked="" type="checkbox"/>	Skill Points [CumulateP->2AA0929CC4C	4 Bytes	50

**8. IMPORTANT! you will not see the change of points in the game!**

**You must spend at least one skill point.**

**ONLY AFTER THIS skill points will change to the amount specified in the Cheat Engine!**
